Call for Papers for the Volume to Celebrate
the 50th Anniversary of the Behaviometric Society

The Behaviormetric Society, chartered in September 1973, will celebrate its 50th year anniversary in September 2023 and plans to publish a volume of papers comprising both invited and contributed papers. The volume will cover the manifold aspects of behaviormetrics and will include all (possibly: employ/utilize or report on all known varieties of) variety of quantitative approaches to better understand human behavior by including papers exploring the issues from theoretical, conceptual, empirical and practical application aspects. The meaning of behaviormetrics has been changing in the past 50 years, and will continue to evolve in the future. Thus the focus of the volume is two-fold. The first objective is to show the orthodox aspects which have contributed to the establishment of the field of behaviormetrics up to the present time. The second objective is to shed light on those which will shape the future of behaviormetrics. Both categories of papers are welcomed. Researchers (including non-members of the Behaviormrtric Society) who are interested in behaviormetrics are strongly encouraged to submit their manuscripts. Contributed papers (excluding invited papers) will be reviewed, and the editors will make decisions on submissions.

Title (tentative)
'Facets of Behaviormetrics: The 50th Anniversary of the Behaviormetric Society'
Please send your contribution to
bms50anniversary@googlegroups.com
The templates for Latex and MS Word to write the submission is available from the Website:
https://www.springer.com/gp/authors-editors/book-authors-editors/resources-guidelines/book-manuscript-guidelines
When you use Word template, there is one template. Use the template to write your paper, please. When you use Latex template, there are two templates. Use the template named 'contributed books', please.
The length of each manuscript will be 15-25 pages in English.
The deadline for the contribution will be October 31, 2022.
Notification of acceptance to authors will be December 20, 2022 (tentative).
The volume will be published in the first half of 2023.
